Compulsory visits with no published slot

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

11 tenders · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No date is set.** Slots commit an officer's time and bear on equal treatment between bidders.

Tender	Year	Compulsory visit	Slots published	Visits actually arranged
Building maintenance	2025	**Yes**	**No**	4
Highways	2025	**Yes**	**No**	**5, over 3 weeks**
Street lighting	2025	**Yes**	**No**	3
Grounds maintenance	2022	**Yes**	**No**	2
7 other tenders	2025	No	—	—

> **On the 2024 highways tender, two visits took place after the date the department believed was the cut-off.** Nobody had set it in writing: everyone was working from their own idea of the deadline.

What the rules provide, and what is missing

Element	In the rules	In the timetable
Compulsory visit	**Yes**	—
Certificate attached to the bid	**Yes**	—
Visit dates	**No**	**No**
Contact person	**No**	**No**
Deadline to request	**No**	**No**

The rules template has a line for "compulsory visit" and no field for the three items that make it workable. That is not a drafting oversight: it is a template.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
