Document check — 43 discrepancies across 186 marriage files

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Found when the file is lodged, not the day before the ceremony · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The agent hands over the two documents side by side, the exact place where they differ and the full chronology:** on 39 of the 43 discrepancies, that is enough to see where the error comes from. **Settling it belongs to the registrar, and the file reaches them complete and reasoned.**

The 43 discrepancies, by nature

Nature of the discrepancy	Number	Example	What it engages
Spelling of a surname or a forename	**27**	**Compound forename hyphenated on the birth record, unhyphenated on the identity document**	**In a civil status record, spelling makes identity**

Nature of the discrepancy	Number	Example	What it engages
Validity or date of a document	9	Copy of a birth record too old, expired proof of address	The document no longer proves what it was meant to prove
Document missing against the lodging list	4	Identity document of a witness missing	The letter for the missing item is written: the file closes as soon as it arrives
Discrepancy between the file and the council's registers	**3**	**Parentage completed by a later acknowledgement that the file did not mention**	**The register says one thing, the file another**
Total	**43 out of 186 files**	—	—

What the timing of the check changes

Timing of the check	What happens	For the family
When the file is lodged	**The discrepancy is settled within three weeks**	**The ceremony keeps its date**
The day before the ceremony	**The ceremony is delayed**	**It happened twice last year**
This quarter	**0 ceremonies delayed**	—

What is compared, document by document

Comparison	Between what and what

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

Identities	**Birth record ↔ identity document ↔ lodging form**
Dates	Date the copies were issued ↔ date of lodging
Completeness	Documents produced ↔ the service's lodging list
Registers	**File ↔ birth record held by the council, where one of the spouses was born here**

What is proposed next

Extension	Volume	What the trial showed
The same comparison on acknowledgements of parentage	**96 a year**	**Of the first six re-run as a dry run, two carried a spelling difference between the parent's document and the child's birth record**

> **This is exactly the kind of discrepancy that comes to light fifteen years later**, when a child is enrolled at a school abroad or an identity document is applied for — **and that then costs a whole procedure, for the family as much as for the council.**

To be set by the council

Date for extending the check to acknowledgement-of-parentage files: _____
