Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The sorting applies the council's service instruction, with its date** — not a rule the agent would have worked out for itself. **A case the instruction does not cover is passed up as it stands, never settled.**

The check, in the order the service instruction sets out

Step	What is checked	Example — full copy of a birth record from 1998
1. Standing of the applicant	**Do the documents produced establish the standing claimed?**	**The notary evidences their professional standing — the full copy can be issued**

Step	What is checked	Example — full copy of a birth record from 1998
2. Nature and age of the record	**Birth, marriage or death record; more or less than seventy-five years old**	**A 1998 record, so less than seventy-five years old: the restricted issuing rule is the one that applies**
3. Location	Register and record number	1998 register, record identified
4. Annotations	**Every annotation entered is carried over**	**Two annotations, one of them entered eleven days ago**
5. Preparation	Copy and covering letter	**Ready for sign-off — nothing goes out without it**

The three piles, across the year's 14,800 requests

Pile	Volume	What is prepared	What stays with the service
Standing established beyond discussion	**9,260**	**Copy prepared, letter drafted**	**The sign-off**
An abstract without parentage is enough	4,200	Abstract prepared, letter drafted	The sign-off
Standing not established by the documents produced	**1,340**	**List of what is missing and the letter asking for the rest already written**	**The judgement — the agent does not settle it**
Total	**14,800**	—	**0 issued without sign-off**

The gain, and what it changes for the family

Measure	Before	After

Handling a request	**4 minutes — 40% of the time it takes**	**1 minute — 10%**
Time given back to the service	—	**740 hours a year**
Time to issue	**8 days**	**2 days**
Requests refused for missing documents	**2,900**	**1,340**

The fall in refusals does not come from the sorting: it comes from the list of documents now being understood **before** the request is sent, and not after a refusal. **A refusal is a three-week round trip for a family: 1,560 round trips avoided this year.**

> **Fictional document**, produced for the demonstration. **The sorting applies the council's service instruction, with its date** — not a rule the agent would have worked out on its own. **A case the instruction leaves open is passed up as it stands, with what has been checked and a draft wording to complete the instruction: nine this year, six adopted.**
