Transcription errors — 47, then 6

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

1.5% → 0.2%, and 0 errors entered over two years · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **This is the figure the agent publishes about itself, and it is better that it should come from the agent itself.** In civil status, what is written follows a person for the whole of their life: **which is why 47 errors prepared produced 0 error entered.**

The first year

Measure	Value	Share
Annotations prepared	**3,100**	100%
Carrying a transcription error	**47**	**1.5%**
Entered	**0**	**All stopped at sign-off**

The cause, measured and not assumed

Origin of the error	Number	Nature of the source

Poorly legible source	**41**	**Handwritten notices, faint faxes, poor-quality scans — one character read as another**
Old handwriting	6	Older records whose handwriting is hard to read
Notice received electronically and legible	**0**	**No error comes from this source**

What was done

Measure	Effect
Any source that cannot be read with certainty leaves the route and comes back on its own	**With the image of the document and the character highlighted**
Every character carried over has been read	**A guessed value is indistinguishable from a value that has been read — and on a civil status record it follows a person for the whole of their life**
Legibility enhancement of the historic holdings	1,140 of the first 1,200 records readable by a search again

The following year

Measure	Year 1	Year 2	Change
Annotations prepared	3,100	3,240	+140
Transcription errors	**47 — 1.5%**	**6 — 0.2%**	**−41**
Errors entered	**0**	**0**	**All stopped at sign-off**
Left the route for an illegible source	**41**	**6**	**After the historic holdings were enhanced**

What to take from the figure rather than the figure itself: 47 errors prepared, 0 errors entered. That is exactly what the sign-off by the head of the registration service is

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

for, **and it is why preparation can move fast without the checking shifting an inch.**

> **A published rate is a rate that can be brought down.** A rate nobody measures stays where it is — and in civil status it comes to light years later, at the counter, in front of a family.

To be set by the council

Chosen frequency for the record of annotations that left the route: _____

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
