Draft marriage record — file no. 2026-114

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Two columns: what the record states, the document that establishes it · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **Every element of the draft carries the document that establishes it and the place where that document says so.** The registrar checks a comparison, **never a text to be taken on trust.**

The comparison, element by element

What the record will state	Document that establishes it	Observation
Identities and dates of birth of the spouses	**Copies of the birth records in the file**	**Issued 41 and 44 days ago**
Addresses	Proofs in the file	With their date
Witnesses	**Identity documents in the file**	**Four witnesses, two per spouse**
Publication of banns	**Posting record attached to the file**	**Posted for 14 days — the time limit is met**

What the record will state	Document that establishes it	Observation
Form of the record	**Council template, drawn up from the general civil status instruction**	Carried over unchanged

The open point — put at the top, with both follow-ups already built

Open point	Status	What is prepared
Annotation of the marriage contract	**The notary's certificate is not in the file**	**Both versions of the record, with and without the annotation, and the follow-up email to the notary's office — it goes out if you decide so**

What stays with the registrar — and the file they find already built

Point	Whose it is	What the agent hands over, already built
Whether the spouses need to be interviewed	**The registrar's — and that is what makes the judgement reasoned and open to challenge**	**One page: how far the declarations agree, how old the documents are, the observations from lodging, and both follow-ups built — summons to a hearing or final draft**
Discrepancy between two documents	The registrar's	The two documents side by side, the exact place where they differ and the chronology that says which was established first
Signature of the record	**The mayor's and the deputy mayors' — it is what makes the record authentic and binding**	The complete draft, ready for checking and signature in 2 min 30

The time this shifts, across the year's 1,736 records

Step	Before	After	Who does it
Gather the documents and find the template	5 min	**0**	The agent
Preparing the draft	**15 min — 60% of the record's time**	**2 min 30 — 10%**	**The agent prepares**
Checking and sign-off	10 min	10 min	**The head of the registration service — unchanged, and deliberately so**
Signature	—	—	**The mayor or a deputy mayor**
Annual saving	—	—	**362 hours**

> **Checking time has not been cut, and it must not be.** What disappears is hunting for the documents and keying them in; **what remains is the only thing that binds the council for the whole lifetime of the people concerned.**

To be set by the council

Decision on chasing the notary's office before the ceremony: _____

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.
