# A draft order — citations by number, reasons written out, perimeter to the metre

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Draft prepared on the station's template, placed in the electronic signature folder · fictional document

**Fictional document — demonstration example**

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

**Fictional document**, produced for the demonstration. **The street, the applicant and the dates are invented. The order number, the posting date and the signature arrive EMPTY: the police power belongs to the mayor, who signs — CGCT, art. L2212-2, L2213-1 and L2213-2.**

## What is filled in on the draft, and where it comes from

| Element of the order | Filled in by the agent | Source of the element | Why this element is decisive |
|---|---|---|---|
| **Citations, given by number** | **Yes** | **CGCT L2212-2, L2213-1, L2213-2; permanent municipal order of 03/03/2024** | A citation copied from a neighbouring template does not ground the measure taken |

| Element of the order | Filled in by the agent | Source of the element | Why this element is decisive |
|---|---|---|---|
| **Statement of reasons** | **Yes, drafted on the facts of the application** | Application filed on 09/03, 20 m³ van | **Art. L2213-2 requires a REASONED order; a general statement is challenged** |
| **Perimeter** | **Yes — rue Pasteur, even side, nos. 8 to 14, 38 metres, 6 bays** | **Municipal road plan** | **71 of the year's 96 redos turned on this single point** |
| **Duration and hours** | **Yes — Tuesday 17 March, 7 a.m. to 6 p.m., eleven hours** | Stated reason | **A duration exceeding the reason is a duration a court narrows** |
| **Signage** | **Yes — at the applicant's expense, installed 48 h ahead, removed that evening** | Permanent order of 03/03/2024 | Without an installation deadline the measure cannot be relied on against drivers |
| **Routes and time limits for appeal** | **Yes** | Station template | Wording forgotten in manual re-entry |
| **Order number** | **NO — left empty** | **—** | **Assigned in the register at signature, never before** |
| **Posting date** | **NO — left empty** | **—** | **Entered in the register after actual posting; it is what establishes entry into force** |

## The two options set side by side, when the request is recurrent

| Option | What it produces | Annual rereading cost | What there is to defend |
|---|---|---|---|
| **214 individual removal orders** | One order per application | **214 × 3 min 24 = 12 h 08** | **214 acts** |
| **1 framework order + 214 prior-declaration receipts** | One framework reread once, one receipt per application | **1 × 12 min + 214 × 40 s = 2 h 34** | **1 act** |
| **Difference** | — | **9 hours returned** | **213 fewer acts to defend** |

**The gain in hours is modest and stated as such: 9 hours. The gain that counts is elsewhere: over 24 months, all three of the town's administrative challenges turned on the perimeter of an order — two withdrawals, one narrowing. A single act, reasoned and bounded, is an act you defend once. The decision belongs to the mayor, and it is taken on those two lines.**

Draft reread, number assigned in the register, order signed by the mayor, on: _____

**Request a demo with your own documents**

This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
