A report and its incident-log entry — a fact is written down, it is not characterised

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Report written up from the patrol notes of 12 March, before rereading · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The officers, the place, the facts and the photograph references are invented. This document contains NO criminal characterisation and NO identification of any person: the sworn officer records the breach, the judicial police officer receives the report — Code of Criminal Procedure art. 21-2 — and the authority decides what follows.**

The report, line by line, with the provenance of each

Line of the report	Content	Provenance
Date and time	**12 March, 8.47 a.m.**	Patrol timestamp

Line of the report	Content	Provenance
Place, to the metre	**Chemin des Vignes, 240 m from the junction with route de Meix, north side, level with street-lighting column no. 47**	**Municipal road plan**
What was seen	Four bags of rubble and two items of furniture	**Observed by Sergeant Lemoine and Constable Sauvet**
Exhibits	**Three timestamped photographs, P-20260312-0847-01 to 03**	Filed with the report
Fact read off an exhibit	**« A registration plate is legible on photograph P-20260312-0847-02 »**, transcribed	**Reading of the exhibit — no matching to a keeper, no access to any vehicle registration database**
Documentary reminder	Municipal order of 21 April 2024 and applicable texts	**Presented as a reminder, never as a conclusion**
Characterisation of the facts	**ABSENT**	**It belongs to the sworn officer and the judicial police officer**
Follow-up given	**ABSENT**	**It belongs to the authority**

The difference, written in black and white

What the agent writes	What it does not write
« Four bags of rubble observed on 12 March at 8.47 a.m. level with column no. 47 »	**« Established fly-tipping offence »**
« A plate is legible on photograph P-…-02: [plate] »	**« The vehicle belongs to Mr […] »**
« 17 records at the same spot over 24 months, 15 of them between 6 p.m. Friday and 8 a.m. Saturday »	**« It is the same person responsible »**

Why this division is not a precaution but a condition of use: a report that already contains a characterisation forces its reader to undo the characterisation before reading the facts. A report containing only dated, placed and attributed facts is usable as it stands by the judicial police officer, by the technical services and by a court — three different readers, one document.

The costed item, and the incident log served in parallel

Before	After	Unit gain	Annual volume	Hours returned
14 min per report, of which 5 min 36 writing up — 40 %	**1 min 24 of rereading — 10 %**	**4 min 12**	**1,860**	**130 h**

Report reread and signed by the municipal police officer, on: _____ at _____

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
