Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **This record counts appointments, not residents.** It exists to fix a page and a confirmation message.

Missing document	Appointments lost	Share	On the booking page?
Proof of parental authority	**61**	**41%**	**No**
Proof of address under 3 months	32	22%	Yes, without the age requirement
Previous document	24	16%	No
Compliant photograph	19	13%	Yes
Others	12	8%	Varies

Three of the four most-forgotten documents are absent, or incomplete, on the page where the resident books. They appear on the "documents required"

> sheet — which online bookers never open.

Where the information sits, and where the resident goes

Page	Holds the full list?	Seen by an online booker?
"Documents required" sheet	**Yes**	**No**
Booking page	**No**	**Yes**
Confirmation message	**No — generic**	**Yes**

The third row is the quickest to fix: the confirmation message exists, it already goes out, and it only needs to carry the list for the chosen reason.

What that gives at your other counters

Counter	List attached to the confirmation	Appointments lost for a missing document
Registry office	**Yes, by reason**	**2%**
Planning	**Yes, by reason**	**2%**
Documents	**No — generic message**	**9%**
