Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **Every line of the calculation can be redone from the authority's logs — that is the condition for an elected member to be able to take it up in session.**

The calculation, in three lines

Recurring questions	**10 % → 8 %**	**2 min 30 → 2**	2,400	**20**
Total				**1,097 h**

> **The framework measures, across 1,004 traced outputs: 0 record signed without the president or a holder of delegation · 0 output sent without a person's validation · 0 resident data left the network · 0 payment order returned by the public accountant for a missing document over the quarter.**

1,097 hours is seven months of a full-time writer's work, given back to the service at identical headcount. No post cut, no post created: **public expenditure held and deadlines kept for the resident.**
