Technical framework — where records in preparation live

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Local inference, read-only, reversibility · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for the demonstration. **Every line can be checked against the delivered configuration, not against a sales claim.**

Where the computation happens, and what leaves it

Point	What is put in place	How it is checked
Place of computation	**Local inference on a machine of the authority**, or an isolated resource hosted in France and dedicated to Val d'Ombrée	Machine address, absence of outbound flow at the firewall
Technical account rights	**Read-only** on the records software and document management	**One command on the account's rights**
Training	**No resident data trains a model**, neither ours nor a third party's	Clause written into the contract

Point	What is put in place	How it is checked
Role-based access	**9 roles** following the function of the departments concerned	**Log: 0 out-of-role access since go-live**
Transfers	**processing in the EU targeted**	Flow log, across 1,004 traced outputs
Applicable law	France, French law — **architecture designed to reduce exposure to extraterritorial legislation, location alone not being enough to guarantee immunity**	Contract and place of establishment of the host

The exit, decided at go-live and not at departure

Element	What becomes of it the day the authority stops
Archive index	**Deleted.** It contained no record — only what is needed to find them where they are
Nine years of archive	**Have not moved a byte**: same folders, same names, same rights
Output log	**Handed over in an open format, or destroyed — the executive board chooses**
62 updated templates and 7 bespoke ones	**Stay with the authority**, in its office format, readable without us
Records software, signature folder, document management	**Unchanged** — no migration on entry, therefore none on exit

> **Dry-run exit at the end of the first quarter:** half a day, we switch off, we check the unit works exactly as before, we switch back on. **Protocol written on one page; recommended date: the first Friday after the June council, when the unit receives 6 requests on average.**

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
