Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **This document publishes the measure the agent establishes about itself, its cause and the correction obtained.**

The first quarter, and why

Cause of the rework	Number	What produced it
Templates citing a replaced delegation	**44**	**A template faithfully reproduced, but which had aged**
Drafting charter left on paper	**17**	**2019 charter available only as a printed version**
Total	**61 of 508 — 12.0 %**	

What was done, and the following quarter

Correction	Effect
Every template carries the delegation decree that governs it and its date	**0 rework for an out-of-date delegation**
Updated version written in the night following any new delegation decree	**Templates stop ageing in silence**
2019 charter digitised, reread and applied to all templates in one night	**0 charter deviation**
Following quarter	**7 reworks across 496 outputs — 1.4 %**

> **The rule that holds the figure:** a value not read is not written, it is requested. **Over the quarter: 58 missing values, 58 requests prepared for their recipient, 52 answers back within eight days.**

Protection of the signature: across **1,004 outputs** over two quarters, **1,004 were validated by a person**, and **the 68 reworks were all done before dispatch, none after. The 7 particular cases of the second quarter became 7 more templates, already written** — three of them for the incentive waste charge the authority is introducing next year.
