Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **Every answer points to the resolution, decree or website page that grounds it, with its date.**

What is outside the authority's remit leaves with the right counter

Request	What the resident receives
Civil status, identity card	Name of the competent municipality, address, opening hours, link to the procedure
Planning permission	Municipal filing counter or shared assessment service, with its contact details
Municipal roads	Municipal technical department, with its number

The resident always leaves with a complete route, never with an approximation given in the authority's name. The digital assistant statement is made in the first sentence, and the resident can ask for a person at any moment: a dated call-back then goes to the competent writer.

Effect on the unit's workload: 1,680 requests stop interrupting the four writers in the middle of a record. That is what makes the **661 hours gained on records genuinely usable**, and not merely accounted for.
