Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **A useful watch comes down to six subjects, not forty pages.** The 5 competitors followed are the ones the advertiser named; the 118 pieces cover six months.

The 6 subjects no competitor covers

Subject	Searches / month	Why it is takeable
Grid connection on farmland	760	Overlaps the “farm businesses” audience proposed at the client review — same market gap, two doors
Photovoltaics and commercial leases	540	A recurring legal question, no quality content anywhere
Asbestos roofing and installation	480	A real objection in meetings, never covered online

Subject	Searches / month	Why it is takeable
Insuring a business installation	420	High-intent subject
Selling surplus power in 2026	390	Rules changed, competitors' content out of date
Photovoltaics and business co-ownership	310	Niche, but a short cycle
Total	2,900	—

The two queries where the advertiser is slipping, and the legible cause

Query	Position 4 months ago	Today	Cause identified	Fix proposed
Business self-consumption	4th	9th	Two competitors updated 2022 content	Rework the 5 oldest articles: 3 hours, not 5 new pieces
Professional installation price	6th	11th	Same cause	Same rework

The argument 3 competitors out of 5 lead with and the advertiser uses nowhere

Argument	What the advertiser can establish	Source	Condition
Grid connection time	6 weeks on average across the last 22 jobs	Site reports	Written confirmation from the advertiser before publication

What the agent puts into a published comparison, and what holds up against a competitor: the advertiser's own measurements, dated, with the file that establishes them. **A figure announced by a competitor does not stand in for that:** it can be neither verified nor answered for, and a published numerical comparison commits the advertiser. **You publish on what you can prove, and that is what makes the claim usable instead of attackable.**
