Entries with no public-holiday handling

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

17 entries · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No entry is rewritten.** The subject is not the drafting: it is an entry template with no field for public holidays.

Topic	Entries concerned	Type of information	Next risky period
Waste collection	4	Collection day	**15 August**
Municipal opening hours	6	Opening days	**15 August**
Weekly market	1	Market day	1 November
Library	3	Opening days	**15 August**
Recycling centre	2	Opening days	**15 August**
Swimming pool	1	Opening days	15 August

Eleven of the seventeen concern a period starting in eight days. This is not a rebuild of the base: it is eleven entries to complete before 15 August.

What is missing, exactly

None of the seventeen entries has a "behaviour on public holidays" field. The information given is therefore right eleven months in twelve, and silent in the weeks when the question arises.

What would be flagged, on your approval

Trigger	Action	What the owner gains
Entry naming a collection or opening day	Flag the missing holiday field	**They complete the template once, and the 17 entries stop falling silent in the month the question arises — the drafting stays theirs**
Public holiday within 15 days	Report of affected entries to the base owner	**Eleven entries to complete, listed eight days before 15 August: the hours come from them, nobody invents any in their place**

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
