Fourteen criteria, two with no documented evidence

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **"Our company is recognised for" is not false: it is nothing.** It commits to nothing, cannot be verified, and earns no points.

What the agent writes on a criterion

Element	Accompanied by
Resources assigned	**Their numbers**
Organisation described	**The internal document that sets it, and its date**
Lead times	**The measurement behind them**
References	**The contract, the year, the value**

What it never writes

Wording	Verifiable?	Points obtainable
"Recognised for"	**No**	**None**
"We take pride in"	**No**	**None**
"Unrivalled responsiveness"	**No**	**None**

Indicator	Last file
Pages	**31 instead of 48**
Criteria addressed with evidence	**12 of 14**
Criteria with no documented evidence	**2**
"See appendix" references with no appendix, blocked	**4**

The two criteria with no documented evidence are flagged, not filled in. A criterion addressed by an empty sentence looks addressed and is not — the only way to lose points without knowing.

Request a demo with your own documents

This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
