Automatic submission — and the two personal acts

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **The agent assembles, uploads, checks and submits. Two acts stay attached to a person, and that is not a design choice.**

What the agent does alone

Act	Done alone?	What it brings
Assembling the file item by item against the rules	**Yes**	**No item forgotten**
Uploading to the platform	**Yes**	**—**
Checking each item is present and legible	**Yes**	**The commonest rejection ground**

Act	Done alone?	What it brings
Submitting, including at 11.50 pm the night before	**Yes**	**What no human should have to do**

The two acts that stay personal

Act	Why it cannot be delegated to an agent
Applying the electronic signature	**It is attached to a personal certificate**
Ticking a sworn declaration	**It is an assertion made by a PERSON about the company**

> **Both bind somebody who has to be somebody.** The file is prepared **signable in one action** so it is not a bottleneck.

The four-day alert, and why that lead time

Missing item	Depends on you?	Time to obtain
Item 1	**Yes**	**Immediate**
Item 2	**Yes**	**Immediate**
Item 3	**No — to request from a third party**	**Several days**

Observed habit	Value
Average submission moment	**4 hours before closing**
What an item rejected then becomes	**Irreplaceable**

For the company to settle

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
