Fourteen overdue checks — no health data

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **The agent sees a date and a name, nothing else.** That is what allows this tracking to exist without any health data circulating.

Overdue by	Employees
Under 3 months	**7**
3 to 6 months	**4**
More than 6 months	**3**
Total	**14**

What the agent relies on, and what it does not determine

Element	Seen by the agent?	Why

The date recorded in the tracking	**Yes**	**It is your own data**
The employee's name	**Yes**	So HR knows who to call in
The applicable frequency	**No**	**Depends on the post and individual monitoring**
The fitness opinion	**No**	**Health data**
Restrictions	**No**	**Health data**
The reason for enhanced monitoring	**No**	**Health data**

> **If the recorded date is wrong, it is the tracking that needs correcting, not the flag.** The agent determines no frequency: it compares a date with today.

What is proposed

When	Flag	Recipient
30 days before the date	**Appointment to arrange**	**HR lead**
On the date	Reminder	HR lead
After the date	**As one list, not one at a time**	HR lead

The thirty-day flag is the only useful one: after the date only a finding remains, and fourteen individual findings produce fourteen ignored notifications.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
