Request for access to one's medical record

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Form for the patient to sign · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. A working template, to be adapted to your practice.

I, the undersigned ..... **born on** ...../...../.....

I request ☐ consultation on site · ☐ a copy to be sent

Covering ☐ the entire record · ☐ the following documents only:
.....

Proof of identity enclosed ☐ National identity card · ☐ Passport · ☐ Residence permit

Date and signature ...../...../..... · .....

Applicable time limits

Age of the information	Time to answer	Starting point

Under five years	8 days	Receipt of the request
Over five years	2 months	Receipt of the request

Article L1111-7 of the French public health code. The five years run from the date the information was created — not from the last consultation. A single record can therefore fall under both limits, document by document.

> **In the case shown, two documents date from 2019**: the two-month limit applies to those, the eight-day limit to the rest. The practice may answer in two stages, provided it says so.

What the agent does with this request

It records the date of receipt, works out the applicable limit document by document, alerts two days out, and flags to the head of reception what is coming due. **It hands over no document and sends none**: releasing the record is an act of the practice.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
