Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No flag rests on clinical content**. Each one reads off an organisational fact: a date on the rota, a clock running, a document attached to nothing, an expired certificate.

#	Flag	What triggered it	Deadline	Recipient
1	Dr Kane away on 13/08 — 14 appointments unnotified	Absence entered on the rota 06/08 at 19:04	6 days	Head of reception
2	Record access request — Mrs Sow	Request received 30/07, not closed	2 days	Head of reception
3	7 reports attached to no record	Filed to shared inbox, 5 days unattached	—	Medical secretariat
4	Dr Mbaye's indemnity cover expired	Valid to 31/07, no renewal on file	Passed	Practice manager

What the agent read, and what it did not look at

LINDBERGH FORMATION — a simplified joint-stock company with share capital of €250,000 · Registered office: 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114 · SIRET 817 946 114 00029 · VAT FR 60 817 946 114 · "Blue Lemon Agent" trade mark · Training-provider registration no. 119 108 635 91 (Île-de-France prefect — this registration does not amount to State approval) · Qualiopi certified, no. 03896, for the "training actions" category · contact@bluelemonagent.ai · dpo@bluelemonagent.ai · Hosted in France.

Flag	Data read	Data NOT read
1	Practitioner name, date, number of appointments	Reason for each consultation
2	Filing date, requester identity, age of the documents requested	Content of the documents requested
3	Sender, filing date, absence of any attachment	Content of the reports
4	Certificate expiry date	—

The third row is the most important in the table. A laboratory report is health data; knowing that a file is attached to no record is not. The watch holds because it stops at that line.

Proposed chases

Time without action	What happens
48 hours	Reminder to the recipient
72 hours	Flagged to the coordinating doctor
Weekly	Summary: flagged, dealt with, unanswered

The thresholds above are a proposal, not a delivered setting. They are written with the practice at deployment, and they can be switched off.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
