Technical framework — where the executive's rulings live, and how to leave

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114
Document issued on 09/11/2026

Local inference, read-only, processing in the EU targeted · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for the demonstration. **It describes the architecture actually offered.** A management meeting is precisely where the things not yet settled get said: **this is the most sensitive information the body holds.**

The two deployment modes, at the body's choice

Mode	Where computation happens	What leaves the network	For whom
Local inference	**On a machine belonging to the body**	**Nothing**	Bodies that already run a server
Isolated resource	On a dedicated server hosted in France, under French law	**Nothing outside the European Union**	Bodies that would rather not administer a machine

Local inference means the model computes on your own machine: the text of a ruling memo or the recording of a management meeting crosses no external network to be processed. **In both cases the resource is dedicated to Val d'Arcène: no pooling with another authority.**

What protects the executive's exchanges

Point	Implementation	What the body can write in its memo to the bureau
Training	**No ruling, no set of minutes feeds any model, neither ours nor a third party's**	“What we entrust surfaces nowhere else”
Write rights	**The read-only technical account has no right to write**	“The tool cannot alter any document, technically”
Encryption	In transit and at rest	“A stolen medium stays unreadable”
Role-based access	**Rights follow the job**: a project officer opens the minutes of their own project, not the ruling memos nor staff files — **9 roles, 0 out-of-role access in the log**	“Each officer sees only what their duties require”
Meeting recordings	**Deleted as soon as the minutes are produced, or kept for the period the body sets**	“The retention period is the body's decision”
Hosting	**France, under French law**, architecture designed to reduce exposure to extraterritorial legislation, location alone not being enough to guarantee immunity	“Deployment objective: processing and access within the European Union”

What the agent plugs into — with no migration

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

Tool already in place	What the agent does there	What changes for the secretariat
Document management system	**Indexes the content of the 41,300 files**	**No renaming, no moving**
Executive mailbox	Sorts, prepares draft replies, extracts deadlines	**Sending stays with the secretariat**
Shared calendars	Offers slots and builds the preparation packs	The final booking stays with the secretariat
Office templates	Builds letters, memos and minutes on them	The templates remain the body's
Register of resolutions	Reads it and links decisions to documents	Nothing: no writing at all

The way out — checkable before deliberating, not after

Element	What becomes of it on the day of termination	What stays with the body
The index	**Deleted**	**The nine years of files have not moved by one byte** — same folders, same names, same rights
Minutes, records and notes	**Nothing to export**	**They are already in your office formats: they have never been anywhere else**
Rewritten templates, 18 plain-language formulas and easy-read versions settled by the secretariat	Stay in your files	**Made of the body's own material, they belong to it**

Element	What becomes of it on the day of termination	What stays with the body
The production and circulation log	Handed back in an open format, or destroyed	**The body chooses, and the question is settled at go-live**
The subscription	**Annual, with no tacit renewal**	**It is renewal that takes a decision, not termination**

> **A dry-run exit is offered at the end of the first quarter**, half a day: we switch off, we check that the secretariat works exactly as before, we switch back on. **The least costly date is the first Thursday of August — no body sits that week.**

For the body to settle

Deployment mode chosen and retention period for recordings: _____

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
