

One greeting, sixty calls, forty-four dialled

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 24/09/2026

Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **The agent corrects what it says itself; it does not re-record the company's greeting.**

Element of the greeting	What it announces	What is true	Since
Hours	Open Friday afternoon	Closed	06/03/2026
Technical support number	A number	Unallocated	Unknown

Consequence	Calls
Arrived Friday afternoon to a closed line	60
Dialled the unallocated number	44
Appearing in a company counter	0

The 44 appear nowhere, not even in the 312 abandons. They did not wait: they called a number that no longer exists.

What the agent corrected alone, and what it did not touch

Element	Changed by the agent?	Why
What the agent says on Friday afternoons	Yes	It is its own speech
The recorded greeting	No	It is what the company says about itself
The number announced	No	Same

What Friday afternoon calls now receive

Information	Given?
Closed	Yes
Reopening Monday	Yes
The option of leaving a message	Yes
An apology on the company's behalf	No

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
