Technical framework — partitioning by market

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Local inference or an isolated resource in France · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **What moves between markets is the reference articles and the register of specifics — company content, never people.**

The two possible architectures

Architecture	Where the computing happens	What crosses an outside network	For whom
Local inference	**On a machine at head office**	**Nothing**	Companies that already host
Isolated resource hosted in France	Environment dedicated to Aldevine	**One encrypted flow, never leaving the European Union**	**No pooling with another manufacturer**

Partitioning, market by market

Element	Moves between markets?	Rule
A customer's personal data	**No**	**A Swedish file is not readable from Poland**
Exchange history	**No**	Attached to the market of origin
Reference articles	**Yes**	**Company content**
Register of specifics	**Yes**	**Company content, dated and signed**
Role-based access	—	**Rights follow the job AND the country**

What protects the rest

Protection	Implementation	What it makes verifiable
Encryption	In transit and at rest	—
Logging	Who consulted which file and when	**Exportable by market**
Retention	**Periods set market by market**	**Automatic purge at the deadline, dated log**
Location	**France, under French law**	**Architecture designed to reduce exposure to extraterritorial legislation, location alone not being enough to guarantee immunity, including where a US provider hosts in Europe**
Use of the data	**No exchange trains an outside model**	A written undertaking

What that opens commercially

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

Fact	Value	Consequence
Distributors that wrote the absence of transfer outside the EU into their renewal	**2**	**Box ticked without reservation**
Largest German reseller's supplier questionnaire	**Point scored out of 5**	—
Processing record	**One per market**	**Asked for once a year per country, and it used to take three days to find each time**

Processing record kept up to date continuously, per market: hosting, subprocessors, retention periods, who has access to what, date of the last check.

Request a demo with your own documents

This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
