Three families, one single ask of a human · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for the demonstration. **Every gap arrives with its origin, its date, its author and the document that ought to be authoritative.** That is what allows twelve contradictions to be settled in six days rather than in committee.

The three families

Family	Volume	Treatment	Decision
Stale translation	**96**	**Aligned on the source, before and after side by side, reversible in one click**	**None touches an undertaking: phrasing, screenshots, model numbers**
Genuine local specific	**40**	**Taken out of the common base, placed in the register of specifics**	**Validation by the relevant market manager**

Family	Volume	Treatment	Decision
Contradiction that commits	**12**	**Put as questions, with the contract clause or product sheet that settles them**	**Market manager — 3 lines, 2 minutes**

What a posed question carries

Element	Content
Statement	**The contradiction in one sentence, in both versions concerned**
Origin	Date, author and rewrite each version comes from
Document that ought to be authoritative	**Distribution contract clause, product sheet or internal note, cited**
Answer expected	**A tick box, or three words**

The result

Measure	Value
Contradictions settled	**12 out of 12, in six days**
Customers contacted after correction	**1,400 Dutch customers, one by one**
Substantive gaps remaining	**0**

Continuous operation proposed: the sort runs on every new edit. **A substantive gap can no longer live for nine months: it is flagged the day it appears, to the manager of the market concerned.**
