Propagation — eleven days become forty minutes

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

41 updates, 9 languages, 0 missed · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **A rewritten reference article carries through to all nine languages, with local specifics reapplied in their place.** The market manager keeps a right to object and a right to freeze.

The circuit of a rewrite

Step	Who does it	Time
Rewriting the reference article	The support writer, once, in French	—
Regenerating the 9 views	**The agent**	**40 minutes**
Reapplying the market's specifics	**The agent, from the register**	Included
Before-and-after sent to each market manager	The agent	Immediate

Step	Who does it	Time
Right to object and right to freeze	**The market manager**	**48 hours, freeze in a word**

Before and after, on the same content

Measure	Before	After
Time to propagate across 9 languages	**11 days**	**40 minutes**
Languages missed on average	**2**	**0**
Updates this month	—	**41, all complete**

Two real cases from the company

Event	What happened	Consequence
Product update to the quiet range, on the 12th	**Nine languages correct that same evening**	**No customer misinformed**
2025 rewrite	**Portuguese version behind for seven weeks**	**340 Portuguese customers received an out-of-date maintenance instruction**

Extension proposed: open the same mechanism to manuals and packaging, through the document translation agent, from the same single source. **Those are the two places where a country version ages without anyone noticing.**

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
