Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **An intervention is closed by whoever carried out the work, never by whoever had the problem.**

Item	Kept?	What it allows
Requests attached to the dwelling, subject and nature	Yes	Finding the 118
Real lead times by type of works	Yes	Announcing a true lead time
Interventions and their closure	Yes	Seeing closures with no feedback
Dwellings with no requests	Yes	The quietest signal
Urgency reclassifications and their reason	Yes	Justifying a priority
Anything describing a tenant	No	See the previous document

What a request does not say about itself

Request as received	Initial classification	Lead time	What it actually was
Window that closes badly	Joinery	6 weeks	In November, electric heating: heating and damp

Reclassification is now done **by season and heating type** — and the reason for reclassifying is stated.

The blind spot of closure

Finding	Value	Correction applied
Interventions marked "completed" with no occupant feedback	104	Confirmation requested; no reply is not counted as a success

What can be written directly to the tenant

Content	Written by the agent?
Acknowledgement with the REAL observed lead time	Yes
Progress status	Yes
Agreed intervention date	Yes
Anything binding the landlord	No — signed by the landlord

For the company to settle

Target lead time by type of works: _____

Chaser delay after an intervention with no feedback: _____ days

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the LINDBERGH FORMATION — a simplified joint-stock company with share capital of €250,000.
