Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **The factor is not the person: when two successive occupants report the same family of problems, what stays constant is the home.**

Finding	Value
Homes accounting for 41% of requests	**118**
Having changed occupant at least once	**73**
Fall in volume at the changeover	**None**
From a single design defect, in two buildings	**29**

Why it was invisible

Usual filing	What it shows

By requester	**People**
By trade	**Jobs**
By home	**Did not exist**

A home behind nineteen requests in three years appeared as nineteen cases, **each closed within the deadline**.

What the agent groups

By home, then by building, **compared with the property's family** — same floor area, same year of construction, same heating.
