Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **An agent covering the whole journey carries judgements as readily as dates.**

Item	Kept?	What it allows
Each step's dates and gaps against deadlines	**Yes**	**Seeing where the journey breaks**
Promises made during recruitment	**Yes**	**The only document that sheds light on a departure**
What was provided	**Yes**	**Comparing**
Access and equipment requests, with their lead time	**Yes**	**Telling a request delay from a technical one**
Scheduled check-ins, held or not	**Yes**	**The 14 with no three-month check-in**
Departures, with their date and step	**Yes**	**Locating them**
Appraisal, at any step whatsoever	**No**	**The chain is deliberately broken**

Why the chain is broken between steps

Situation	What happens if the agent carries the reservation
A recruiter voices a reservation	It reaches the manager as a finding of the tool
The recruiter says it themselves	They voice it, to the right person, and answer for it

> **The agent carries documents, dates and commitments; the reservation goes back signed to its author — nobody can accuse the agent of having distorted it.**

The recruitment promise, kept without exception

What is promised	Why it is kept
Remote working	It is what the joiner heard
Equipment	First thing compared with what they find
Scope of the role	Same
Training announced	Same

On the seven probation departures, **it is the only document that sheds any light.**

For the company to settle

Retention period for recruitment promises: _____ years
