Third-party portfolio — relationships and services

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Nuage Clair — fictional software publisher, hosted service offer · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for the demonstration. The values below are the ones the engine actually read from the case: they recompute, they are not transcribed.

What the register links

Business object	What it carries
nomenclature logicielle du produit	owner, contract, service supported, review date
rapport d'audit de type 2	owner, contract, service supported, review date
registre des sous-traitants ultérieurs	owner, contract, service supported, review date
politique de correctifs publiée	owner, contract, service supported, review date

The segment rules, applied as written

Rule

Un composant déclaré vulnérable n'est pas un produit vulnérable : l'atteignabilité dans le déploiement servi se démontre, ou elle reste inconnue.
Un rapport d'audit à réserves reste un rapport valable : chaque réserve devient une mesure, pas un motif de rejet.
Un changement de sous-traitant d'hébergement notifié dans les formes ouvre une réévaluation du seul maillon changé.

Counting unit for this file: **versions publiées par an**.

Request a demo with your own documents

This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
