Treatment plan — measure, owner, deadline

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Studio Bréhat — fictional audiovisual production and post-production company · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for the demonstration. The values below are the ones the engine actually read from the case: they recompute, they are not transcribed.

Measure	Evidence required to close
Productions dont l'annexe de sécurité des médias est signée	dated, signed document, with its scope
Accès au coffre fermés à la livraison	dated, signed document, with its scope
Sous-traitants créatifs déclarés par le prestataire principal	dated, signed document, with its scope
Masters sous embargo tracés jusqu'à la diffusion	dated, signed document, with its scope

Segment exceptions, written and reasoned

Exception

Une coproduction impose le prestataire du coproducteur : l'évaluation se fait, l'alternative n'existe pas, et cela se documente.
Un prestataire de sous-titrage ne touche pas l'image : son périmètre de données diffère, son exigence aussi.

> **A measure closes on its document, not on a promise.** Remediation closed without evidence stays open in the file.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
