Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. The values below are the ones the engine actually read from the case: they recompute, they are not transcribed.

Measure	Evidence required to close
Sources amont dont la licence couvre la rediffusion	dated, signed document, with its scope
Flux dont la fraîcheur est mesurée en continu	dated, signed document, with its scope
Sources sans alternative documentée	dated, signed document, with its scope
Clients rediffuseurs dont la clause est bornée	dated, signed document, with its scope

Exception

LINDBERGH FORMATION — a simplified joint-stock company with share capital of €250,000 · Registered office: 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114 · SIRET 817 946 114 00029 · VAT FR 60 817 946 114 · "Blue Lemon Agent" trade mark · Training-provider registration no. 119 108 635 91 (Île-de-France prefect — this registration does not amount to State approval) · Qualiopi certified, no. 03896, for the "training actions" category · contact@bluelemonagent.ai · dpo@bluelemonagent.ai · Hosted in France.

Une source publique ouverte n'a pas de licence à négocier, mais sa disponibilité n'est garantie par personne : l'inconnue se déclare.

Un cache local prolonge la vie d'un flux interrompu : il masque l'incident, la mesure de fraîcheur le révèle.

A measure closes on its document, not on a promise. Remediation closed without evidence stays open in the file.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
