# Treatment plan — measure, owner, deadline

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Assurances Malvoie — fictional insurer, property and liability · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for the demonstration. The values below are the ones the engine actually read from the case: they recompute, they are not transcribed.

| Measure | Evidence required to close |
|---|---|
| **Mandataires sous convention à jour** | dated, signed document, with its scope |
| **Sinistres dont la chaîne de traitement est tracée** | dated, signed document, with its scope |
| **Experts disposant d'un protocole de collecte écrit** | dated, signed document, with its scope |
| **Concentration sur les plateformes de gestion** | dated, signed document, with its scope |

## Segment exceptions, written and reasoned

| Exception |
|---|

| |
|---|
| Une expertise sur pièces ne collecte aucune donnée sur les lieux : le régime diffère et se motive au dossier. |
| Un réparateur agréé n'est pas un sous-traitant de données s'il ne reçoit que la référence du sinistre — encore faut-il le prouver. |

**A measure closes on its document, not on a promise.** Remediation closed without evidence stays open in the file.

**Request a demo with your own documents**

This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
