

Scope of processing — 61 fields out of 214

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 24/09/2026

Allocation of the six uses to the two environments · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. *Minimising means processing only the data the stated purpose genuinely needs. 153 fields out of 214 are removed because none of the six uses needs them* — every field removed is one line less to defend in front of an auditor.

The sorting, in three numbers

Field population	Number	Consequence
Fields available in the warehouse	214	—
Fields kept by the six uses	61	Only those enter the declared scope
of which health data	12	Separate space, encrypted apart, open to the medical adviser alone
Fields removed	153	No use needs them

The two environments and what separates them

Environment	What requires it	Uses allocated
Health hosting: the HDS requirement	Hosting health data on behalf of others requires, in France, a host certified for that purpose: the obligation falls on the host and is proven by a certificate in force	4 uses out of 6
SecNumCloud qualified resource	A security qualification issued by the French national information systems security agency; it targets the level of security and immunity from foreign law	2 uses out of 6

Allocation, use by use

Use	Health data?	Environment	Fields kept
Income protection claims	Yes	Certified health	24
Member questions about statements	Yes	Certified health	19
Complaints	Yes	Certified health	17
Annual review of group schemes	Yes	Certified health	14
Checking member companies' onboarding documents	No	Qualified resource	11
Maintaining the operating documentation	No	Qualified resource	6

The gain is direct: two uses out of six leave the most demanding perimeter, and **their go-live no longer depends on the hosting-qualification calendar — 5 weeks saved on each of the two.**

What each field kept carries

LINDBERGH FORMATION — a simplified joint-stock company with share capital of €250,000 · Registered office: 10 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114 · SIRET 817 946 114 00029 · VAT FR 60 817 946 114 · "Blue Lemon Agent" trade mark · Training-provider registration no. 119 108 635 91 (Île-de-France prefect — this registration does not amount to State approval) · Qualiopi certified, no. 03896, for the "training actions" category · contact@bluelemonagent.ai · dpo@bluelemonagent.ai · Hosted in France.

Attribute	Why it is recorded
Purpose	It is the purpose that justifies the field's presence, and nothing else
Retention period	Written field by field, not globally
Authorised roles	Cross-reference to the access matrix
Date of entry into scope	An auditor asks since when, not only what

No field enters the scope without the compliance department's signature, and no use has access to data until its specification is signed. This is not an after-the-fact check: it is the condition of access.

For the insurer to settle

Allocation of the six uses settled by the security officer on: _____

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
