Execution mandate — six actions, capped

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Written, dated, withdrawable with a single word · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The mandate IS the human decision**: written in advance, dated, capped, and tied by the log to every execution. **0 action triggered without a human decision.**

The six actions covered, and nothing else

Action	Reversible	Historical executions over 5 years
Restarting an application service	**Yes**	412
Purging the aggregation cache	**Yes**	**288**
Extending a logging volume	**Yes**	197
Restarting an interrupted night job	**Yes**	**214**
Rotating an expired interface token	**Yes**	89
Requeuing a stuck batch	**Yes**	40
Total	—	**1,240 executions, no induced incident**

What caps the mandate

Limit	Rule
Number of executions	**One per incident only. Health check not reached → rollback and call to the on-call engineer, complete file**
Scope	**Environments listed by name, removable one by one**
Outside the six actions	**File built, triggered by the on-call engineer — they wake up to decide, no longer to search**
Duration	**Review after three months. Without an explicit decision, the mandate stops — renewal is what takes a signature**
Withdrawal	**One word, effective within the minute; everything reverts to files awaiting a trigger**

What it is worth, on the company's own figures

Measure	Today	Under mandate
Night-time incidents this quarter	148	148
of which falling under the six actions	—	**96**
Night-time restoration delay	**3 h 10**	**4 minutes**
Breaches of the 4-hour commitment	**31 for the year — €1,200 each, €37,200**	**6 — €30,000 that stays with the company**

How an execution unfolds, minute by minute

Moment	What happens
T+0	Action executed, timestamped, tied to the mandate and to the diagnosis

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

Moment	What happens
T+90 s	**Health check on the indicator specific to the action**
Green	Incident closed, morning report at 7 am with before and after measurements
Otherwise	**Immediate rollback (40 s on average across 96 trials), then a call to the on-call engineer with the complete file**

> **The six rollbacks stay with the company even without a mandate:** written and proven, the engineers run them by hand in 40 seconds.

For the company to set

Environments covered by the mandate and review date: _____

> **Request a demo with your own documents**

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
