Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **The intention is good and the effect is the opposite.**

What is supplied to install it

Condition	Basis
Proportionality	Art. L1121-1, Labour Code
Prior information	Art. L1222-4, Labour Code
Works council consultation	From 50 employees

The intention, and the effect

What is expected	What happens
Balance the meetings	Everyone speaks to appear

What is expected	What happens
Spot those who go unheard	Knowing they are counted, they say something other than what they thought

The measure proposed, serving the same aim

Measure	Finding on one meeting	What it corrects
Agenda items actually covered	4 of 7 covered, 3 postponed unannounced	The agenda, not the people

A person who goes unheard is often a person whose item was not reached.

What carries a name, and what does not

Element	Attributed?	Why
Decision	Yes	It commits
Commitment	Yes	It commits
Opinion voiced in the room	No	A meeting is where people think aloud; minutes circulate

For the company to settle

Measure chosen: _____

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
