Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No spelling is deleted.** A deleted record breaks past reconciliations; an attached one preserves them.

Spellings for one address	Addresses concerned
2	**116**
3	**24**
4	5
5 or more	2
Total	**147**

The case flagged this morning

Spelling	System	2026 costs attached

12 avenue des Exemples	Finance	**€18,400**
12 av. des Exemples	Finance	**€7,200**
12 avenue des Exemples (block A)	Schools	**€31,900**
12avenue des Exemples	Schools	**€2,100**
Real total for the building	—	**€59,600**

> **None of the four lines says what this building costs.** The largest shows €31,900 of €59,600 — and it is the one a per-building statement would surface as the building's line.

What is proposed

Action	What the department gains	What stays in its hands
Designate a reference spelling	**Statements finally aggregate the real cost: €59,600 instead of the €31,900 of the largest line**	**The choice of the reference spelling**
Attach the other three	**Past reconciliations stay valid, no entry deleted**	—
Apply across all systems	One decision holds everywhere, and for the years that follow	—

Choosing the reference spelling is a reference-data decision. It belongs to the department that owns the data, because it then holds for every system and for the years that follow.
