Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No correction was made or proposed**: the entry is correct, and the flag closes on that finding.

What triggered the flag

Element	Value
Amount entered	**€1,240.00**
Expenditure type	Building maintenance works
Other entries of this type in 2026	47
Minimum of the 47	€108,400
Maximum of the 47	€890,200
Gap to the minimum	**factor of 87**

> **A gap that size is a signal, not a conclusion.** A genuinely small expenditure produces exactly the same gap as an entry missing three zeros — and nothing in the figure separates them.

What the supporting document settled

Counting this line as an error detected would inflate a rate and skew the department's judgement of the tool. It is counted for what it is: a check performed on someone's behalf.
