Eleven expired temporary orders

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No text is removed from the register.** A spent act is still an act that existed, and a register whose texts disappear can no longer be relied on.

#	Subject	Made	End date	Spent for
1	Highway works	12/03/2024	**30/06/2024**	**2 years 1 month**
2	Temporary diversion	04/09/2024	31/12/2024	1 year 7 months
3	Site occupation	18/11/2024	28/02/2025	1 year 5 months
4	Closure of a facility	07/01/2025	31/03/2025	1 year 4 months
5 to 9	5 traffic orders	2025	2025	**8 to 14 months**
10	Market regulation	03/02/2026	30/04/2026	3 months
11	Temporary prohibition	11/03/2026	31/05/2026	2 months

None of these eleven texts produces any effect, and that is precisely what makes them awkward. A resident consulting the register finds eleven texts that appear to be in force, and nothing on the document says they are spent.

What is proposed

Element	Content	Load
Nature	**A single order recording the expiry of all eleven**	**1 act, 1 signature**
Content	**Each one's end date, copied from its own text**	—
Effect on the register	**All eleven stay, with the note**	—
Legal effect	**None — the texts were already spent**	—

The last row deserves saying: this order changes nothing in law. It changes what someone consulting the register reads, and that is its entire purpose.

Request a demo with your own documents
This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
