Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No word carrying legal scope is changed.** "May" and "shall" are not interchangeable; "including" opens a list, "solely" closes it.

The 94-word sentence

Original text, article 3: "*The perimeter concerned means the section of highway between the rue des Exemples junction and the mouth of the impasse Fictive, including the adjoining pavements as well as the parking bays on the even-numbered side, excluding the turning area at the northern end, which remains accessible to service vehicles, it being specified that access for residents is maintained throughout the works.*"

The same perimeter, rewritten

Element	Included?	Detail
Highway from the Exemples junction to the impasse Fictive	**Yes**	—

Element	Included?	Detail
Adjoining pavements	**Yes**	—
Parking bays, even-numbered side	**Yes**	—
Northern turning area	**No**	**Accessible to service vehicles**
Resident access	**Maintained**	**Throughout the works**

> **The table says exactly what the sentence says.** Nothing was added, nothing removed, and both exceptions — the turning area and resident access — appear with the same force as in the original.

The words that were not touched

Word	Role	Changed?
"means"	Defines the perimeter	**No**
"including"	**Extends**	**No**
"excluding"	**Restricts**	**No**
"remains"	**Preserves a prior state**	**No**
"is maintained"	**Preserves**	**No**

What remains to be decided

Published version: ☐ original text ☐ rewritten version

That box is not ticked by the agent. It is the authority's act, signature and risk — all the agent did was make the two versions comparable line by line.

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
