Recurring citations found in your acts

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

4 orders · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **These are not references from memory: they are your references, with the act and date where each was read.**

Citation found	Appears in	Date of the act	Still to check
General legislation on policing powers	**4 orders of 4**	2019 to 2025	**Still current?**
Legislation on playground safety	**3 orders of 4**	2021 to 2025	**Still current?**
Resolution on management of facilities	2 orders of 4	2024	**Still in force?**
Order on the organisation of departments	1 order of 4	2022	**Still in force?**

The last column is not filled in, and it cannot be filled here. A citation read in a 2019 act was correct in 2019; knowing whether it still is requires opening the cited text, which the agent does not do.

What this list saves

Without the list	With the list
Working out which citations to use	**The four candidates are given**
Starting from nothing	**Starting from what the authority already cites**
Half a day	**Thirty seconds per citation to check**

Where the line falls

The agent	Does it?
Copies a citation read in one of your acts	**Yes**
Gives the act and date where it read it	**Yes**
Writes a citation from memory	**No**
Asserts that a citation is current	**No**

> **Request a demo with your own documents**

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
