Fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **No appraisal of an act's legal quality is produced**: a worthless mark would nonetheless be read as a guarantee.

Item	Kept?	Why
The act transmitted	**Yes**	Retracing the path
The documents attached and those missing	**Yes**	**Understanding a round trip**
Date of the acknowledgement	**Yes**	**Start of the period**
Observations received	**Yes**	**The most useful source**
What was done about them	**Yes**	Corrected, contested or filed
Statistics per drafter	**No**	**Unrelated to the quality of the acts**
Observation rate per department	**No**	**Same reason**
Compliance appraisal	**No**	**An act marked "compliant" then referred is worse than nothing**

What the quarterly summary contains

Content	What it indicates
Types of observation received	Where to put the effort
Observations that no longer recur	**What the authority genuinely corrected**
Observations that still recur	A template to update
Acts transmitted incomplete	A document to add to the circuit

> **The second row is the one nobody thinks to produce.** An authority knows what it is still criticised for; it can rarely say what it has corrected, and that is the easier of the two to demonstrate.

To be set by the authority

Retention period for transmissions and their documents: _____ months

Retention period for observations received: _____ months

> **Request a demo with your own documents**
