Fictional document — demonstration example

> **Most authorities cannot answer that question**, not because they have something to hide, but because nobody kept a record of what the tool looked at.

The rule that makes this page necessary

Everyone has the right not to be subject to a decision based solely on automated processing producing legal effects concerning them — **article 22 of the General Data Protection Regulation.**

A recruitment decision produces such effects. That is why the tool produces neither score, nor order, nor rejection — and why it keeps enough to demonstrate it.
