Two hundred and fourteen replies, in two versions

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **The agent does not write that an application "was not successful" when it was never read.** That is the most frequent wording and it is a lie: the candidate believes they were assessed.

Waiting	Candidates
Under a month	**41**
1 to 3 months	**55**
3 to 6 months	**77**
More than 6 months	**41**
Total	**214**

Thirty-four of the 214 had applied to you before. They tried again and received nothing twice — an unanswered application is the only interaction those people will have had with the company.

The two versions prepared

Situation	Candidates	What the reply says
Arrived after the post was filled	**187**	**The post was filled, with the date**
Arrived before, not examined	**27**	**The file was not examined**

What the second version does not say

Wording	Used?	Why
"Your application was not successful"	**No**	**It was not read**
"After careful consideration of your profile"	**No**	**There was no consideration**
"Your file was not examined"	**Yes**	**That is what happened**

The second version contains an admission, and that is why the agent does not send it. How to say it belongs to the company.

What it represents in work

Element	Value
Replies prepared	**214**
Versions	**2**
Estimated sending time	**One day**

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
