

Three things not guaranteed

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 24/09/2026

2,100 pages · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **Saying them beats letting them be assumed.**

Limit	What is done instead
Having seen everything	Every answer carries the DATE of the search
That a source tells the truth	Guaranteed to say what is reported: link and exact excerpt
Dating a page that does not date itself	Flagged as undated, not treated as current

What sits **behind a subscription, outside the index, or published after the search** escapes the agent. A search redone three months later **is not the same one.**

Undated pages

Finding	Value
---------	-------

Pages consulted	2,100
With no date at all	118

Without a date, accurate information and stale information look exactly alike.

Real confirmations, counted

Appearance	Reality
A figure on three apparently independent sites	All three traced to the same page, which cited nobody

Contradictions

Finding	Value	Behaviour
Searches giving two incompatible answers, each sourced	12 of 340	Both are given, neither is chosen

What is kept from a page

Element	Kept?
Exact address	Yes
Date consulted	Yes
Precise excerpt retained	Yes
Copy of the page	No

For the company to settle

Period after which a search is redone: _____ months

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
