Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **The web always answers**: a tool that never says "nothing" presents as an answer the first page that looks like one.

Cause	Count	What is handed back
Answer not published	19	Where I searched, and what comes close
Badly-put question — two in one	16	Both questions, separated
Contradictory public sources	12	Both positions, sources and dates

Three times out of four, saying where you searched is enough for the person to reformulate.

On the 12 contradictions

Action	Done?
Settle it	No
Give both positions	Yes
Say that they conflict	Yes

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
