Substantive corrections — 14 out of 96

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

15 %, and what brought it to 4 % · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **This tally is published by the agent without being asked.** A substantive correction here is a value, an operating limit or a conformity that had to be changed — **not a rephrasing: an error that, published, would have been wrong.**

The quarter's tally

Measure	Value
Pieces produced	96
Returned with a substantive correction	**14 — that is 15 %**
Concentrated on three ranges	**11 of the 14**
Others	3

Where they cluster, and why it is not random

Range	Corrections	State of the documentation	Recent test reports
Sercal	**6**	**2018 manual, never reissued**	**4, on the engineering office's machines**
Orinne	3	2018 manual	3, off the server
Bexo	2	2018 manual	2, off the server

The reading is clear: the agent was writing correctly against its sources and wrongly against reality, **because reality was not on the server**. It is the case where a fluent text is most dangerous — **it carries no outward sign of its error.**

The three other corrections

Nature	Number	Origin
Operating limit absent from the PIM	2	The characteristic existed in no readable source
Conformity certificate changed index	**1**	**The document had not been replaced on the server**

The two corrections, in place for six weeks

Correction	Implementation	Effect
Highlighting any claim whose source is more than three years old	Systematic, whatever the text	**Highlights 60 % of the claims on the three ranges — uncomfortable, and it is the right signal**
Adding the 41 test reports later than 2024 to the server	Done, and entered in the index	**The three ranges recover 9 of them alone**

Since the corrections

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

Period	Pieces	Substantive corrections
Last six weeks	24	**1 — that is 4 %**

That is little hindsight to conclude from, and it is said that way rather than presented as proof. The tally is attached to every quarterly review: it says what the agent's first draft was worth over the quarter, **and it points at the real cause rather than hiding it — three ranges whose documentation is not current.**

What is proposed, in this order

Action	Scope	What the agent prepares
Reissue the Sercal manual	**34 references, 6 of the 11 corrections**	**The rewrite frame from the 4 recent test reports**
Reissue Orinne	21 references	Frame ready
Reissue Bexo	18 references	Frame ready

To be scheduled with the engineering office

Date for reissuing the Sercal manual: _____

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the
