Working version, four modals of nine departures

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **A contract translation is read once to understand and reread years later to settle something.** At the second moment, nobody remembers it came from a tool.

What is marked at the head of the document

"*Working version — not reviewed by a legal professional*"

Property of the marking	Value
Removable from the agent's tool	**No**
Removable by a person	**Yes, and it is their decision**

What the agent always flags in a contract

Element	Flagged?	Why

May / shall	**Yes**	**They carry the obligation**
Undertakes to / best efforts	**Yes**	**Two very different intensities**
Figures, dates, currencies	**Yes**	**A review almost never catches them**

Of the 9 cascaded departures	**Count**
Concerning a modal	**4**
Others	**5**

What is produced in no case

Deliverable	**Produced?**	**Why**
Certified translation	**No**	**It requires a sworn translator**
Certificate of conformity	**No**	**Same**

> **Request a demo with your own documents**
>
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
