

Attachments — twelve months of sandboxing

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 24/09/2026

2,140 attachments examined · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **An attachment the agent cannot read stays closed: it does not guess the contents.**

Over twelve months	Count	What was done
Attachments received on the three shared addresses	2,140	Opened in an isolated, disposable sandbox
Came out clean	2,131	Filed and attached to the client case
Held in quarantine	9	Never placed in the document store
Of which hostile	7	Archives containing an executable, macro-bearing documents
Of which clean, held wrongly	2	Opened by a person, then filed

The two held wrongly, and what fixes them

LINDBERGH FORMATION — a simplified joint-stock company with share capital of €250,000 · Registered office: 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114 · SIRET 817 946 114 00029 · VAT FR 60 817 946 114 · "Blue Lemon Agent" trade mark · Training-provider registration no. 119 108 635 91 (Île-de-France prefect — this registration does not amount to State approval) · Qualiopi certified, no. 03896, for the "training actions" category · contact@bluelemonagent.ai · dpo@bluelemonagent.ai · Hosted in France.

Attachment	Why it was held	Fix proposed
Password-protected spreadsheet	Contents unreadable in the sandbox	The password arrives on another channel, the file is handled the same day
Signed quotation in an old format	Format not recognised by the analysis	Format added to the list of readable formats, after verification

The direction of the error is a choice, and it is owned: the agent would rather keep a clean attachment closed than open a hostile one. **This year's two cases cost a delay, not an incident.**

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
