Thirty-four symptoms outside the tree, nineteen from one defect

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114
Document issued on 09/11/2026

Fictional document

Fictional document — demonstration example
This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **Forcing the case into the neighbouring box produces an immediate, plausible answer, sometimes effective by accident.**

Handling	Used?	What it produces
Force into the nearest branch	**No**	**Unrelated manoeuvres**
Say the behaviour is not on record	**Yes**	**—**
Ask for two distinguishing details	**Yes**	**—**
Pass the raw description to second line	**Yes**	**An unknown case, not a variant of a known one**

A symptom rewritten in the tree's terms has already lost what made it new.

Of the 34	Count
From a single undocumented defect	**19**
Branches they would have scattered across once translated	**6**

The nineteen were identified because the raw descriptions resembled each other.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
