# Eighty per cent preparation, three formalities

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

4,200 cases · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **Many rules look mechanical and are not.**

| Rule | Mechanical? |
|---|---|
| **"Above this amount, the manager approves"** | **Yes** |
| **"If the customer is a long-standing partner, we can be flexible"** | **No** |

And the second is written in the same documents as the first.

| Time split | Share |
|---|---|
| **Preparing the case** | **80%** |
| **The decision** | **20%** |

## The 80 % of preparation is done; the 20 % of deciding stays with the approver

| Act | Done? |
|---|---|
| **Approve a case** | **No** |
| **Cross a commitment threshold** | **No** |
| **Decide an exception** | **No** |
| **Apply a rule whose interpretation varies** | **No** |

## What is flagged

Three approvals granted in 99% of cases without ever being discussed: **those are not decisions, they are formalities** — for the company to choose whether to remove them, not for the agent to automate quietly.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
