Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration; people are shown by initials. **No merge is proposed and none is possible from this page.**

What agrees

Field	Record A	Record B	Weight
Address	12 rue Fictive, 44000	12 rue Fictive, 44000	**Strong in combination**
Date of birth	04/09	04/09	**Strong in combination**
Surname	MARTINEAU	MARTINEAUX	Medium — close spelling

What diverges

Field	Record A	Record B	What it implies
First name	**C.**	**L.**	**Two distinct people, absent proof otherwise**

Field	Record A	Record B	What it implies
Year of birth	**1978**	**1952**	**26 years apart**
File opened	03/2019	07/2023	Two unrelated schemes

> **The most likely explanation is the most ordinary: two people from the same family at the same address.** A parent and child born on the same day of the month is unremarkable, and three agreeing fields weigh nothing against two different first names.

What a merge would cost

Consequence	Extent
Entitlements computed on two incomes	**Wrong amounts, in both directions**
History attributed to the wrong person	**Social, medical or educational, depending on the scheme**
Impossible to separate afterwards	**Nothing says any more which line belonged to whom**
Answering a subject access request	Becomes impossible to establish

What would settle it, and where it is

Document	In the file?	What it would establish
Identity document, record A	**Yes, filed 12/03/2019**	**First name and year**
Identity document, record B	**Yes, filed 04/07/2023**	**First name and year**

Both documents are already in the file. The decision takes thirty seconds, and it is taken by someone who has opened them — which is very different from approving on three agreeing fields.
